

RASION 2

- QUIET**
93 dB
- PRODUCTIVITY**
1,600 W
Cutting width: 60 cm
- BATTERY LIFE**
Up to 5 hours - 5,400 m²
- LIGHTWEIGHT**
Less than 30 kg
- ERGONOMICS**
Very easy to handle
Low vibration
- WATERTIGHT**
Work in all weather conditions

Laurent Dabbène
Resources and methods manager
Segex Group (91)
Garden development and maintenance

“The trust placed in us by our customers over the past 55 years has been built on our professional approach and know-how in garden layout and maintenance. In the past, we used mainly petrol-motor gardening tools in our activities. But over the years, our approach to the job has gradually evolved. PELLENC being the reference in the field, the decision to draw on their expertise was perfectly natural. It is now twelve years since we first began investing in Pellenc battery-powered tools from the Green and City Technology range, and we are extremely satisfied with the results. PELLENC machines are quiet, which is a real source of satisfaction for our clients, both those of the general public and local authorities. Their battery autonomy is perfectly suited to our activities, and the tools are extremely efficient.”

Team leader
Les Jardins de Castellane (84)
Garden development and maintenance

“Our place of work is a holiday residence in the Vaucluse region of France maintaining an estate that stretches over some 40 hectares. This year we experimented with the RASION 2, whereas previously we had employed petrol-motor lawnmowers. The RASION 2 is clearly a very different kind of machine. For one thing, because it is so quiet, we no longer have to wear hearing protection and we can work without disturbing the clients. What's more, it is very easy and comfortable to use. We can bring it all over the estate and easily manoeuvre around trees. In addition at less than 30 kilos it is surprisingly light, which makes it easier to go up or down steps on site.”

Mowing with consideration for the user's well-being

Exceptionally low vibration

NEW Vibration rate of 0.7 m/s² (compared to 4.5 m/s² for a petrol mower).

Easy to handle

Zero Turn assisted-steering system: idle wheels at the front and reverse rotation of the rear wheels make it easy to turn 180°.

NEW 4 mm non-slip and notched front single wheels facilitating stability and smooth operation.

NEW 2 front-wheel locking positions: idle wheels or guided steering to manage slopes.

Cutting adjustment

Centralised cutting height adjustment: manual or electronic from 25 to 75 mm.

Compact

Cleaning and storage position.

Intensive mowing over extended periods

Perfect cut

Two counter-rotating blades: 3,000 to 5,000 rpm
Thin steel blades with high tensile strength.

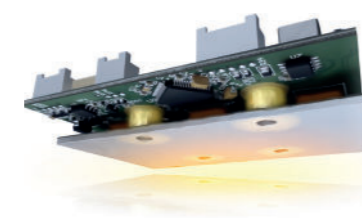

Optimised automatic anti-jam system

NEW Reverse rotation of the blades to remove excess grass from the housing while keeping the mower running.

Heat dissipation.

NEW IMS** circuit board derived from LED technology, delivers higher electronic capacity and improved heat exchange, extending the machine's limits.

**Insulated metallic substrate

SEE THE IMS** CIRCUIT BOARD IN 3D

Mowing quietly

Low-noise wheel motor

Low-noise brushless wheel motor with direct drive. 91 dB at cutting speed 3 and 93 dB at maximum power.

RASION 2 EASY & SMART

4 ground speeds
(3 on the Easy model with the ICC option*)

Manual control of cutting height and parking brake (automatic control on the SMART model)

25 to 75 mm

NEW

IMS** circuit board

NEW

Low-noise brushless wheel motor
Zero Turn

RASION 2 SMART

One-handed control, electronic control panel for adjusting the cutting height, ground speed, and the rotational speed of the blades

ICC* vegetation detector

*Intelligent Cutting Control
**Insulated metallic substrate

TECHNICAL FEATURES

	RASION 2 SMART	RASION 2 EASY
Cutting width	60 cm	
Flexible collection bin	70 L	
Weight without collection box or battery	30 kg	28 kg
Battery life with ULiB 1500 battery	5,400 m ²	
Max. cutting power	1,600 W	
Guaranteed noise level L _w dB(A)	93 dBA	
Sound level L _p dB(A)	83.5 dB	
Vibrations a _w	0.7 m/s ²	
Collection blades as standard	2	
Blade speeds	4 (4+1 ICC*)	4 or 3 + ICC* available as an option
Blade rotation speed	3,000 to 5,000 rpm	
ICC* infra-red vegetation detector	Yes	Available as an option
Boost -> 5,000 rpm	Yes	
6 cutting heights	25/35/45/55/65/75 mm	
Centralised height adjustment	Electronic	Manual
Mulching kit: blades and sealing plug	Available as an option	
Ground speeds	2/3/4/5 km/h	
Front wheel lock	Free or locked position	
Housing	Aluminium	
LED control panel	Yes	No
Assisted zero turn	Yes	No
Immobiliser safety feature in vertical position	Yes	
Automatic anti-jam mode	Yes	
Parking brake	Electric (semi-automatic)	Manual
IP54	Yes	

Developments compared with RASION 1

*Intelligent Cutting Control
**Insulated metallic substrate

Adjust your cutting speed to the work at hand

- Maintenance mowing: lower the rotational speed of the blades and increase the ground speed
- Difficult conditions (tall grass): increase the speed of the blades (C3) and reduce ground speed 2 km/h.

- C1** Maintenance, speed 1 suitable for noise-sensitive environments Dry grass, height <5cm
- C2** Maintenance, speed 2 suitable for noise-sensitive environments Wet grass, height between 5 and 10 cm
- C3** Mulching discharging Wet and thick grass, height between 10 and 15 cm
- C4** Difficult collection conditions and fast ground speeds Dry grass

Speed	Blade Speed	Ground Speed	Noise Level	Power
4 speeds - 1,600 W	4 blades	2 km/h	87 dB	1,600 W
C1 3,000 rpm	4 blades	2 km/h	87 dB	1,600 W
C2 3,686 rpm	4 blades	2 km/h	89 dB	1,600 W
C3 4,333 rpm	4 blades	2 km/h	91 dB	1,600 W
C4 5,000 rpm	4 blades	2 km/h	93 dB	1,600 W

Boost function activated by pressing the trigger twice
